In your eyes  
I'm hypnotized  
You steal away, straight to my heart  
One breath  
One touch  
One word, captivates my heart

Here underneath the stars, in your arms  
You can take all the pain away  
Lying here in your arms, safe and warm  
Feel like I could fly away

When we touch, the current pulls us under  
When we touch, my heart it feels a hunger,  
How you know me, how you show me  
What you do to me, when we touch

I want you  
I need you

You bring out everything, deep in me  
Make me stronger  
Make me weaker  
Make me more than, I ever thought I'd be

I can reach the unreachable, here, in your arms  
There's nothing that I can do  
I can reach the impossible, here, in your arms  
When I'm here next to you

When we touch, the current pulls us under  
When we touch, my heart it feels a hunger,  
How you know me, how you show me  
What you do to me, when we touch

Cello Solo

It's Heavenly, It's Heavenly

When we touch, the current pulls us under  
When we touch, my heart it feels a hunger, feels so much  
How you know me, how you show me

What you do to me, when we touch  
Hold me baby, show me, when we touch  
when we touch

I love you today, tomorrow, forever

I am your shadow  
I am your rain  
I am your longing  
A little of your pain  
I am red  
I am blue  
I am your angel  
I am in you

I am your madness  
I am your tears  
I am your sadness  
I am your fears  
I am restless
